Shabnam Beiraghian { CurleyCoder } Full Stack Developer

github.com/curleycoder • shabnambeiraghian@gmail.com • linkedin.com/in/shabnam-beiraghian • curleycoder.github.io

Full-stack developer and AI product builder who ships real products end to end. Built and deployed an embeddable AI chatbot live on a client's website and a SaaS immigration tracker (navly.ca). Combines strong systems thinking with fast, practical delivery of tools that solve real business problems.

EXPERIENCE

Full Stack Developer | Self Employed (beiraghian.com) | Burnaby **JUN. 2025 - Present**

- Re-platformed ELIKA Beauty's salon operations onto a custom full-stack booking system (React, Node.js, REST API), owning the full process from architecture to deployment on Vercel and Render
- Reduced booking errors by ~90% by building a scheduling engine with conflict detection and automated time-slot validation
- Worked directly with the business owner to gather requirements, iterate on features, and manage the full product lifecycle

Census Enumerator | Statistics Canada | Burnaby, BC **JUN. 2026 - AUG. 2026**

- Collected and entered census data accurately for households, meeting daily targets and federal data-quality standards
- Explained the census process clearly to residents and handled hesitant or upset people calmly and professionally
- Kept detailed records of every visit and follow-up while working independently with minimal supervision

Sales Associate / Cashier Team Lead | Lordco Auto Parts | Vancouver **NOV. 2019 - MAR. 2025**

- Served about 100 customers a day in a fast-paced team, quickly finding the right auto parts for their vehicles
- Answered customer phone calls about parts, pricing, and stock, and solved problems on the first call
- Led the cashier team: trained new staff, managed shift coverage, and kept transactions accurate
- Handled returns, complaints, and difficult situations calmly, helping keep customers satisfied and coming back
- Used inventory and point-of-sale systems daily to look up parts, check stock, and process transactions accurately

PROJECTS

Navly — Canadian Immigration Tracker (SaaS) | navly.ca **APR. 2026**

- Built and launched a freemium SaaS that helps immigrants track their Canadian PR pathway — CRS score estimator, stage-based checklist, and live IRCC draw notifications
- Sole founder — owned product design, full-stack build (Next.js, Supabase), pricing, and go-to-market end to end

DEW AI Chatbot — Embeddable AI Front-Desk Tool | dew.beiraghian.com **DEC. 2025**

- Built and deployed an embeddable AI assistant (Next.js, FastAPI, Google Gemini API) now active on ELIKA Beauty's website — automating customer inquiries around the clock
- Designed a prompt engineering system using injected knowledge files to deliver context-aware, business-specific responses without hallucination

EDUCATION

Full Stack Web Development Diploma | **BCIT** | **With Distinction** **APR. 2026**

VOLUNTEER

nwPlus | HackCamp Judge **NOV 2026**

BCIT Women In Computing (WiC) | Social Media Director **SEP. 2025 - APR. 2026**
